GSSM'S ONLINE DIPLOMA PROGRAM

## Example Weekly Schedule for STEM Foundations Students

STEM Foundations students take classes throughout the day live via Zoom. Most classes meet for 53 minutes three times per week. The following table shows an example schedule for a STEM Foundations student.

Blank spaces in the schedule are times when the student is not in classes. Students can choose how they use these breaks in the days—current students report using them for studying, attending teachers' office hours, exercising, working, club meetings, etc.
